EventSafe Foundation

REIMAGINING EMERGENCY RESPONSE FOR PUBLIC SAFETY

THE PROBLEM: EMERGENCY RESPONSE IS TOO SLOW AND TOO RISKY

At public events and in high-density areas, current safety systems fail when speed matters most:

- **X** Bystanders must leave victims to find help
- **X** Staff guess who's nearby or available
- **X** Responders search blind for the incident
- **X** Medical risk is unknown until arrival
- **X** Paperwork is duplicated, delayed, or lost
- **X** Hospitals re-do assessments, wasting time
- **X** No safety net for responder accountability

THE EVENTSAFE SOLUTION: REAL-TIME, DATA-DRIVEN SAFETY

EventSafe modernizes every stage of emergency response with two coordinated apps:

PUBLIC USERS

Public Users (via Scavenger app) enjoy fun activities and request help with a tap

RESPONDERS

Responders receive instant alerts, medical info, and navigation via their phone

OLD SYSTEM

X Bystander leaves to find help

X Dispatcher guesses who to send

X Teams search for location

X No info on medical risk

X Paperwork is handwritten

X Hospital starts from scratch

X No accountability for teams

EVENTSAFE SYSTEM

✓ Victim self-triages via app instantly

✓ Closest qualified teams auto-alerted

✓ GPS with turn-by-turn to patient

✓ Full profile & live chat with patient

✓ Digital logs with real-time sync

✓ Instant digital handover

✓ Secure chat, logging & protection

PILOT LAUNCH: SCHOOLIES 2025 – GOLD COAST

✓ 20,000+ young attendees protected

✓ 500+ frontline responders enabled

✓ 50,000+ users served in summer rollout

✓ 30% faster response times

✓ Expansion across 3 Gold Coast LGAs

COLLABORATORS IN DEVELOPMENT

✓ Red Frogs Australia

✓ Surf Life Saving Queensland

✓ Volunteer & event safety teams across Southeast QLD

BUILT FOR SPEED. BACKED BY DATA. DESIGNED FOR SAFETY.

EventSafe isn't just emergency tech—it's a smarter, faster, and safer way to protect the public and empower those on the front lines.
